DESCRIPTION OF THE IDEA

The story

The main character is a little girl who is walking around the fantasy world of cartoon looking cute ingredients. She is cute, smart, and loves cooking. Her mission is to collect ingredients for the chocolate fruit cake.

The user needs to help the little girl collect the right ingredients for the given recipe. The evil villain is pushing wrong ingredients towards the girl.

How will she get through the fantasy world and pass evil villain picking the right ingredients for the given recipe?

No worries. Her friend Mr. Chili is here to help her pick the correct ingredients. He has a super power of blowing fire flames. If user wants to collect wrong ingredient Mr. Chili will blow fire on the incorrect ingredient. Whenever user collects the correct ingredient Miss Chili will produce a pop up message saying: "Good choice! " or "Well done!".

The user doesn't know that it is impossible to lose. The story will always end happily because Mr. Chili will burn all the incorrect ingredients. At the end of the pathway of the fantasy world is sitting an empty bowl. The girl drops the ingredients in the bowl and the chocolate fruit cake appears.

By letting the story always end successfully the message "Cooking is fun and easy" will be enhanced.

Message

Cooking is fun and easy!

Genre / mood

Fun, fantasy, imaginative, playful, adventurous, educational.

STYLE TILE

Inspiration from the style:

tado.co.uk

Contour line:

Either there is no line or the line is black, thick and graffiti-like with some variation in the lines thickness.

Characters/background relationship:

The characters stand out from the background due to a contrast in the color, size, and by the use of layering elements on top of each other.

Specific characteristics in the style:

The shapes are curved and the eyes are often shape geometric.

The pupils can for instance be hearts on positive characters or lines on evil characters.

The characters have their individual characteristics, which are reflected through unexpected details. For example, Mr. Chili has a cute face expression but when faced with evil ingredient his eyes become narrow and he can blow flames.

Typography: CHALKBOARD: Sans serif: Has its own cartoon look intended for use in comic books or material for children.

Colors:

Colors are bright. A lot of pastels. Main characters follow the good guys color logic and evil villain the bad guy color logic.

Typography:

CHALKBOARD

Sprite sheet Miss Chili

Width 779px
Height 150px

Explanation of one or more animation principles according to my animation

Arch: she moves up and down which creates an arch when she moves forward.

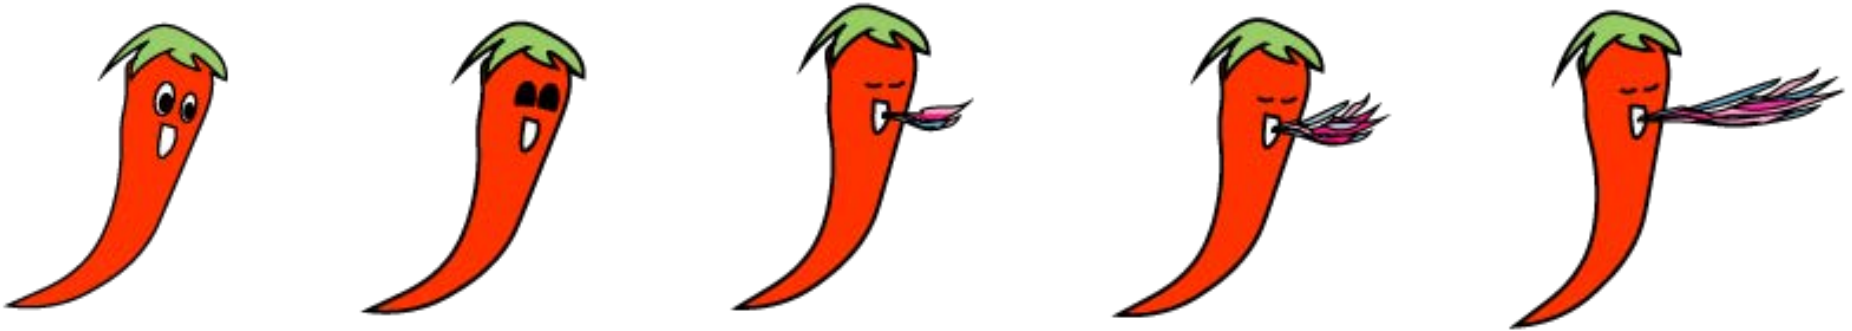

Squash and stretch: Her feet get squashed when touching the ground and stretched when not, which creates the feel of weight, mass.

Follow through & overlapping action: I used this technique on her left arm. Gives a feel of realism to character.

Sprite sheet Mr Chili

Width 782px

Height 160px

Arch: he moves up and down which creates an arch when he floats forward.

Straight ahead: For fire I used strait ahead animation, animating as you go, good for animation that is unpredictable.

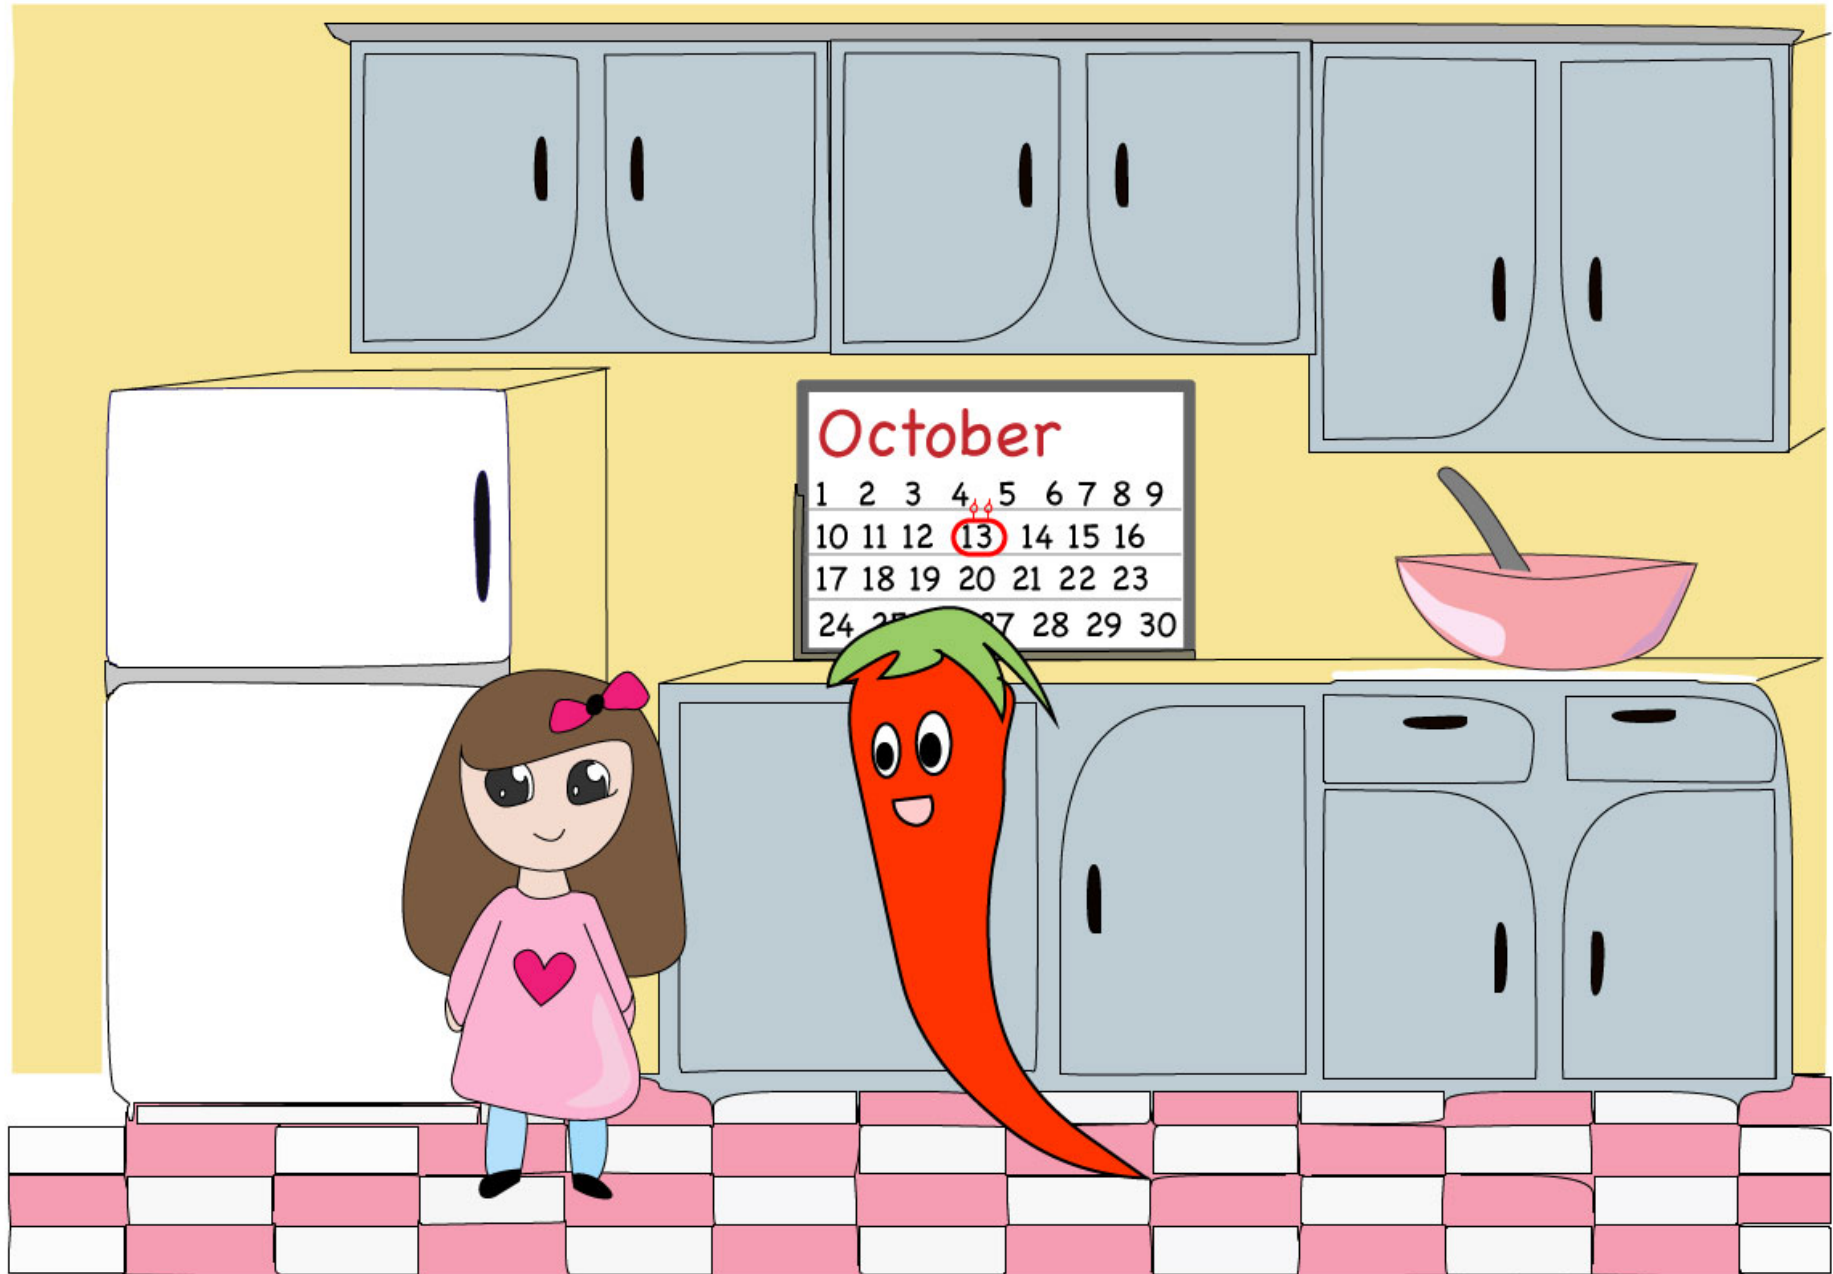

Pose to Pose: For Mr Chili I used Pose to pose animation. Draw the beginning and the end pose and then added the ones in between. Pose one he is leaning forwards and last pose he is leaning slightly back, to make the fire blowing effect more realistic.

Extra: Interactive game where user can pick up ingredients for the cake.

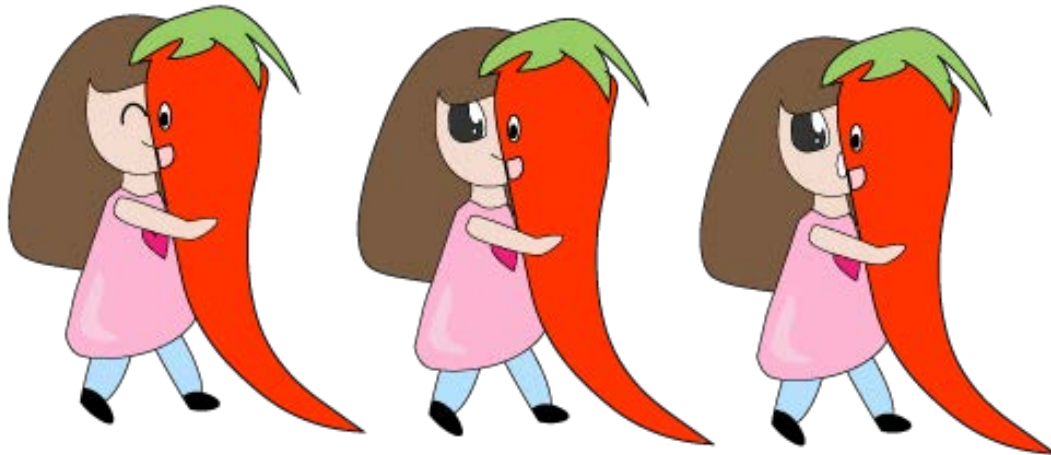

Extra Graphics

Start picture, scene is set up in the kitchen.

Extra Graphics

Sprite sheets - hug

Hug with background, close up on hug and calendar with a cake circled around the date. Miss Chili looks surprised.
